# About the LNT Ltd.

- ▶ LNT - innovative SME, founded in 2004 as a spin-off from the Network Research Laboratory at Moscow Engineering Physics Institute with the support of the Foundation for Assistance to Small Innovative Enterprises
- ▶ The aim of current R&D activities is to enhance Quality and Security of complex technological objects operation exploiting distributed heterogeneous IT-infrastructures
- ▶ **We deal with problems of**
  - stored multi-source data processing for various networking entities;
  - dynamic profiling and behaviour analysis;
  - adaptable change detection and early warning, etc.

## **ICT Key words:**

Computer networks,  
Network Security,  
Information Security,  
Quality Control, Artificial  
Intelligence, Computational  
Intelligence, Artificial  
Immune Systems, Cross-  
platform Software  
Development, Web  
Technologies

# Cooperation potential

## Project idea:

“Intellectual information system for empirical parametrical operation control of complex technological objects”

## Competences

### for FP7 ICT Work Programme:

- 1.2 Internet-connected objects
- 1.4 Trustworthy ICT
- 2.1 Cognitive Systems and Robotics
- 4.4 Intelligent Information Management
- 7.3 Virtual factories and Enterprises

## Objectives for interaction with ISTOK-SOYUZ

- to promote our project idea and competences of our team;
- to establish contacts for potential international partnerships and joint R&D projects;
- to place our current R&D activities in EU R&D agenda and increase visibility of our company

# Customized expert support

**Step 1 – Win in the EU-EECA ICT-cluster Call (July, 2010)**

**Step 2 – Consulting support for participation in the FP7ICT Work Programme**

**Expert support to prepare for participation in the ICT 2010 Conference:**

- organization of participation in the special networking sessions
- Preparation of promotion materials
- search and contact with interested partners
- promotion on the EU-EECA Exhibition stand
- financial support

**Step 3 – Identification and follow contact with partners for participation in the FP7 ICT WP**

**Step 4 – Submission of joint proposal for ICT Call 8 or following**

# Project's value for our team

- ▶ Individual consulting support for participation in FP7
- ▶ Assistance in developing and implementing strategy to promote the team's ICT competences in the EU
- ▶ Assistance in identifying and establishing contacts with necessary European partners and consortia
- ▶ Methodological support for participation in the FP7 ICT Work Programme and "How to Effectively Network/Communicate in International R&D projects"
- ▶ Consultancy support at the stage of negotiations and preparation of the proposal for FP7 ICT WP
